

Sunday, Oct 18th

Downtown Closure

Details

General Directions for access to Hospitals during closures

Downtown Road closures:

- **Bloor St.** Closed from **Yonge to Bathurst** – 7am-10:30am
- **Yonge St.** Closed from **College St. to Bloor St** – 7am-10am
- **Yonge St.** from **Adelaide to College** – 3am-11am
- **Bathurst St.** closures from **Bloor to Lakeshore** – 7am-11am

Key Access points during closures:

- **Spadina crossing:**
 - **Spadina** remains open and unaffected by the closures north and south from Queens Quay to Harbord all day.
 - **Gardiner expressway** Spadina offramp is open all day east or westbound and vehicles can travel north on Spadina to the hospitals and east to University Ave. without any road closures affecting this route.
 - **Spadina, north of Bloor**, will be Police Controlled and remain open from 7:00am-7:45am for north/south crossing of Bloor during the Bloor St closure. After 7:45am, only Emergency vehicles, Emergency Surgery & Patients requiring urgent care to cross. No other vehicles will be able to cross Bloor Street until the last participant passes this location at approximately 10:00am

****Bloor St is closed, so vehicles are not able to travel south on Spadina across Bloor St to the hospitals from 7:45am-10:00am****
- **Yonge & Wellesley Crossing:**
 - Davenport is open so vehicles can travel eastbound on Davenport to Church St. & south on Church st to **Wellesley** then west on Wellesley to Yonge & Wellesley crossing point.
 - Police Controlled crossing east & westbound across Yonge St on Wellesley will operate freely between **7am-7:45am** and then again every 15 minutes between **8:15-9:45am**. Wellesley should re-open to east/west traffic **by 9:45am**.
- **Avenue Rd crossing:**
 - There will be a Police controlled crossing north/south from 7am-7:45am during our Bloor St road closure but before the race begins at 8am. After that, the Police will cross Emergency Vehicles, Emergency Surgery Staff & Patients requiring urgent care across. For all other vehicles, they will do their best to cross vehicles in gaps in runners when it is safe to do so but those gaps are not likely to be long enough to do a crossing safely. We anticipate re-opening Avenue Rd north & south across Bloor St by **10:00am**.
- **Bathurst St. crossing:**
 - Dundas & Bathurst - We will be crossing east/west traffic during our Bathurst closure from 7:00am-8:00am, after that time, we won't be able to cross people until the last participant has crossed at 10:15am

Other transportation options:

- TTC opens at 8am so vehicles could park near subway stations and take the TTC to the hospitals between 8am-10:30am during key closure times and increased traffic times
- Spadina streetcars will also be running north and south all day, unaffected by Road Closures.

Sunday, Oct 18th
